

Marching Band Contract

Concert Band Involvement

In order to be a member of the Middletown High School South Marching Band, students must agree to participate in a MHSS concert band. 8th grade students must be a member of their school's concert band and must be approved by their director before being considered for the marching band. High school students who attend South must register for an instrumental music class. South students who are unable to take an instrumental music class can apply to participate in Block 7 Band and would be governed by the rules for that ensemble. Acceptance into Block 7 Band will be handled on a case by case basis. MCVSD students must agree to participate in Block 7 Band.

Participation Statement

I wish to be a member of the Middletown High School South Screaming Eagle Marching Band. I have reviewed the schedule and understand that I am expected to participate in all rehearsals, footballs games, competitions, and parades. I further understand that dates may change and additional events may be added to the schedule and that my attendance at these events is also expected. I attest that I have read the Concert Band Involvement clause and agree to the conditions set forth therein. Further, I agree to do my best and to represent the marching band and Middletown High School South appropriately. I agree to work with the other members of the band and color guard to put forth the best performances possible while expressing a positive attitude and fostering positive relationships with my peers.
